PM LEGACY™ Temperature Controllers

NEW Product Introduction

Date: 8/11/2020

Product Description:

PM LEGACY™ Features an Enhanced User Interface

Watlow's PM LEGACY™ SERIES panel-mount controllers are industry leading PID controllers that allow optimal performance utilizing simple control and menu functionality without complex features. They are ideally suited for basic applications and usage levels.

The LEGACY controllers include one universal input and an option for up to two outputs and are available now in a 1/16 DIN panel-mount package, with the 1/32 DIN to follow later this summer. They can be ordered as a PID process

controller or as a dedicated over and under-temperature limit controller. The LEGACY SERIES controllers feature a SMOOTH-TOUCH™ keypad creating an industry leading user experience.

PM LEGACY controllers are backwards compatible with EZ-ZONE® PM controllers. The PM LEGACY SERIES will also continue to use the EZ-LINK™ mobile app that has newly enhanced capabilities.

Availability: Order queue **NOW OPEN** via **e-Solutions**.

Introductory Lead Time: 15 business days

New configuration Codes: PM6XXXX-XXXX(G,H)XX
